## CONTENTS OF NOTE TO THE POWERS

United States Agrees to Withdraw Troops from Peking  
Washington, Aug. 31.—[Special Telegram.]—The department of state at noon made public the correspondence including the instructions to the United States diplomats in European capitals concerning our position in China.

Reciting the statement made orally by the Russian charge yesterday that Russia has no design for territorial acquisition in China; that equally with the other powers she has sought the safety of the legations; that the occupation of New Chang is simply a defensive military movement, and now that the Chinese government has left Peking, the Russian minister has been instructed to withdraw with his troops; sending another representative to Peking when the Chinese government regains control and asking the United States to share this opinion.

Should Be No Difficulty  
"All the powers therefore having disclaimed any purpose to acquire any part of China," says the memorandum, "it ought not be difficult by concurrent action to reach an amicable settlement with China by which the treaty rights of all the powers will be secured for the future. An open door is assured and full reparation made for wrongs and injuries suffered. In our opinion these purposes can best be attained by a joint occupancy of Peking until the Chinese government is re-established, when the United States would wish to withdraw their military forces."

## BOXERS PILLAGING THE LAND

Still Looting in Peking—Besieged Were Not in Great Danger  
Shanghai, Aug. 31.—[Special Cablegram.]—A letter received from Taku says the Boxers are pillaging the country south and west of Tien Tsin and killing the natives who oppose their organization.

The Boxers are still besieging Pao-Ting-Fu, the gates have been closed for several weeks.

Two thousand Boxers, it is alleged, were slaughtered at a feast to which they were recently invited by the Tai-Tai of Taung Chow. They were set upon after having attacked their arms.

There is no cessation of looting at Peking. The American soldiers alone of all the allies are refraining from pillage. It is said that the officers of the allied troops are disgusted over the conduct of the foreigners who were besieged. It is claimed the besieged were never in extreme danger and could have held out many weeks longer.

## Looks Like a Lawn Party

On entering the grounds of the British legation the American troops started in amazement and inquired if there was a lawn party in progress. They had expected to find the relieved in a worse

condition than themselves, whereas the contrast between the appearance of the rescued and the rescuers was surprising in favor of the former.

The British minister, Sir Claude MacDonald, was shaven and dressed in immaculate tennis flannels. Mr. Cooger, the American minister, was equally presentable. The assemblage of ladies was fresh and bright in summer clothing. Only a few civilians were carrying guns.

On the other hand, the rescuers were haggard and rough bearded. They dragged themselves along as if ready to drop, their khaki uniforms dripping with perspiration and black with mud.

Torn by Chinese Shells  
The tops of the American and British building were badly torn by the Chinese shells. The rest of the foreign settlement was almost demolished. Two thousand eight hundred shells fell there during the first three weeks of the bombardment, 400 in one day. Buckets full of bullets were gathered in the grounds.

414 Persons Under Siege  
Four hundred and fourteen persons lived in the compound through the greater part of the siege. Three hundred and four marines, assisted by eighty-five volunteers, commanded by the English Capt. Poole defended the place. Eleven civilians were killed and nineteen wounded. Fifty-four marines and sailors were killed and 112 wounded. The American loss was seven killed and eleven wounded. Gilbert Reid, who was wounded in the feet was the only American civilian injured. Two foreign women were wounded.

## Detroit Has a Small Lead

The long delayed census figures for Detroit, Mich., were announced yesterday, and the city's population is given as 285,815 or 389 more than that of Milwaukee. But on September 11 next, when the pending annexation of territory will be largely and fully consummated, Milwaukee will be a larger city than Detroit by 4,000 or 5,000, and Detroit's insignificant supremacy in point of population will be short lived.

## BOMBS IN A BARBERSHOP

Wenewoc Citizens Are Given a Bad Scare.

Baraboo, Wis., Aug. 31.—The citizens of Wenewoc had a great scare the other morning upon finding two bombs in Evans' barber shop. One was wrapped in a paper which had been set on fire. The paper burned up and also the fuse to within two inches of the shell. It was first thought to be a hoax. One of the shells was taken to an open field, placed in a large dry goods box filled with straw and lighted. A moment later there was a terrible explosion which was heard for miles, and not a splinter of the box or bomb could be found anywhere.

## City of Distances.

"The City of Magnificent Distances," as applied to Washington, D. C., is said to have originated with John Randolph. ## PYTHIANS ENDORSE ROTATION IN OFFICE

**CONSIDERABLE FEELING OVER ELECTION OF FETHERS.**

Members of the Order From Pennsylvania Put Up a Strong Fight Against Sample—Other Supreme Officers Elected—Drilling for Prizes Today—The Rathbone Sisters.

Detroit, Mich., Aug. 31.—There was considerable feeling over the election, which resulted in the advancement of vice chancellor Ogden H. Fethers to the foremost position in the Knights of Pythias and the relegation of Sample to the rear.

Only one ballot was taken, and it was a secret one. The result is taken to sustain the custom of rotation in office.

## Sample's State Fights Him

What was most remarkable in the contest was that the fight against Sample was largely led by members from his own state of Pennsylvania. Thomas E. Thompson, grand chancellor of Pennsylvania, was on the grounds for that purpose, accompanied by five hostile supreme representatives, twenty-five grand lodge representatives and five past grand chancellors.

## FIVE POWERS AGREE TO CZAR'S POLICY

GERMANY AND ITALY STAND AGAINST PEACE IN CHINA.

It is Believed at Washington That All the Nations Can Be Brought to Indorse the Recommendations Made For Peace—America's Reply to Russia.

Washington, D. C., Aug. 31.—Five powers have agreed to Russia's proposal to withdraw troops from Peking and two have announced opposition to their adoption. Four powers have finally declared that Li Hung Chang is acceptable to them as the representative of China to negotiate peace. Two not only question Li Hung Chang's credentials, but the power of the government to approve his acts, and one desires to know more about the credentials he holds before it is willing to treat through him.

This sums up the international situation with respect to China as shown by developments today. It could hardly be more satisfactory, viewed from the American standpoint.

An active interchange of views took place today between the capital of Europe and Japan and Washington, and as a result it is altogether likely that pressure will be applied to the two powers anxious to remain in Peking to induce them to withdraw simultaneously with the evacuation by the other allies.

## Standing of the Powers

The powers which object to the adoption of the Russian proposal are Germany and Italy.

These which favor it are the United States, Great Britain, France, Japan and Russia.

The powers which question Li Hung Chang's credentials and the power of the imperial government to enforce the terms he may make are Germany and Italy.

France would prefer to know more about Earl Li's credentials before negotiations commence. The governments to which Li Hung Chang is acceptable are the United States, Russia, Great Britain and Japan.

Confidence is expressed that France will not be obstinate, but will appreciate the advisability of negotiating with Li Hung Chang. With five powers acting in unison Germany and Italy will be compelled by the sheer weight of the force opposed to them to join the allies, not only in withdrawing from Peking, but in entering in negotiations with the Chinese viceroy for peace. This at least is the view of officials here, who do not hesitate to express their admiration of Russia's conduct.

## America's Reply to Russia

Though the administration has kept the American reply to Russia's plan advocating the withdrawal of troops secret, it is learned from a member of the cabinet that it is very short. It calls attention to the position of this government as set forth in the American note of July 3 and declares that this government will willingly withdraw when the security of American life in China is established.

## Rassieur's Career.

Major Leo Rassieur, the new commander of the G. A. R., was raised in St. Louis, and according to his friends is the most popular man in that city, absolutely true to his convictions and

LEO RASSIEUR.

to his friends. An antebellum incident well illustrates his character.

Before the firing upon Fort Sumpter a meeting was called at the old St. George market-house in South St. Louis, the stronghold of the Germans, by Gov. Jackson, ostensibly for the purpose of giving expression to the sentiments of the people on the coming conflict, but really to strengthen the cause of secession. Out and dried resolutions were presented proclaiming the right of a state peacefully to withdraw from the Union and denying the right of the general government to coerce a sovereign state. Fiery speeches were made in support of these resolutions. The sturdy Germans stood awed for a moment, but suddenly Rassieur, then a 17-year-old boy, stepped upon a butcher's block, and in words of burning eloquence, bristling with patriotism, he denounced secession, neutrality and the resolution. The chairman of the meeting, being a southern sympathizer, ruled him out of order, but the boy cried, "All lovers of their country follow me," and they went to an adjoining room and organized a new meeting.

Charles O'Claire Has An Experience In a Musk Melon Patch Belonging to Charles Austel.

Young O'Claire who was about four rods distance received the contents in his back. He was brought to the city and taken to Dr. Wood's office and about one hundred shot picked out of his body.

It is safe to say that O'Claire will not meddle with his neighbor's melon patch for some time to come, and Austel, may find himself in trouble for the use he made of the shot gun.

## TAFT COMMISSION PLANS.

New Government for Filipinos to Be inaugurated.

New York, Aug. 31.—A special to the Herald from Washington says that all arrangements have been practically perfected by the Taft commission for commencing its duties in connection with the establishment of civil government in the Philippines.

The commission will assume on September 1 all the functions which properly belong to the legislative branch of the government. It is not proposed that it shall be in supreme control. Maj. Gen. MacArthur will be the executive of the islands, and the commission will be co-ordinate with him, just as the executive and legislative branches in the United States are on the same plane.

Civil government will not be established except in those towns where the military authorities are satisfied there is no danger of insurrection. The commission and the military will work together to propitiate the natives and induce them to return to their peaceful vocations. For the suppression of those insurgents who continue in arms it is understood measures will be taken as soon as the dry season begins. Gen. MacArthur will soon have a force of nearly 70,000 effective men, who will be used to destroy the insurgent organizations when operations can begin.

WEARY VETERANS  
HOMEWARD BOUND

Wind Up of the G. A. R. Encampment  
At Chicago Today—Lone At  
Woman's Meeting.

Chicago, Aug. 31.—Footsore tired in body and dusty but jubilant over the encampment, 30,000 veterans of the civil war trooped into outgoing trains this morning and with 75,000 other visitors left Chicago.

Men who have not seen one another since they were mustered out of the service, more than thirty-five years ago, said good-by for probably the last time, and others who had not missed an encampment for a score of years shook their heads and said: "Not many more of these celebrations for us, comrades." Officials of the G. A. R. assert that no future encampment will carry with it the numbers and the enthusiasm of this, the thirty-fourth in the history of the organization. Few of the entire membership of less than 300,000 are hardy enough to endure the march of the big parades.

From early morning until late into the night the passenger stations were crowded with men wearing G. A. R. badges and men and women loaded down with souvenirs of every sort. Estimates made by railway officials placed the numbers carried out of the city yesterday as follows: Northwestern station, 21,000; Illinois Central, Michigan Central and other lines at Park road, 15,000; Union station, 22,000; Van Buren street station, 16,000; Grand Central station, 12,000; Dearborn street station, 12,000.

G. A. R. Women Elect.

This is what was done at the women's conventions:  
Mrs. Mary L. Carr elected president of the National Woman's Relief corps. Mrs. Etta Lee Toby chosen president of the Ladies of the Grand Army of the Republic. Miss Lillian E. Phillips elected president of the Daughters of the Veterans.

Daughters of Veterans Elect.

The Daughters of Veterans election was as follows: National President—Miss Lillian E. Phillips, Austin, Ill. Senior Vice-President—Elizabeth Bardsley, Alliance, O. Junior Vice-President—Carrie Westbrook, Elmira, N. Y. Council—Mrs. Elizabeth Kimball, Fitchburg, Mass.; Anna M. Clark, Binghamton, N. Y.; Julia Croft, Cleveland, O.; Evelyn Monroe, Worcester, Mass. Chaplain—Clara Martin, Stockholm, Neb. Treasurer—Ada J. Allen, Newtonville, Mass. Inspector—Maude Amadon, Nashua, N. H.

Chosen by Army Nurses.

The result of the election of the Association of Army Nurses was: President—Miss Ada Johnson, Missouri. National Senior Vice-President—Mrs. Margaret Hamilton, Massachusetts. National Junior Vice-President—Mrs. S. Kripps, Pennsylvania. National Secretary—Miss Kate Scott, Pennsylvania. National Treasurer—Dr. Nancy Hill Iowa. National Chaplain—Mrs. E. Gibson, Wisconsin.

Plan Big Army School.

Chicago, Aug. 31.—With assets and pledges amounting to upward of \$500,000, the Sons of Veterans are making active preparations to begin work on a national college, which is to be dedicated to the Grand Army of the Republic and in commemoration of the men and women of Civil war times. Dane County Farmers' Picnic

Cleanest in America.

The Lackawanna Railroad is the cleanest railroad in America. Even though it cared little for the comfort of its passengers, which it does, it probably would burn hard coal, for the reason that it owns the most extensive anthracite coal mines in Pennsylvania, and it is cheaper for it to burn hard coal, which makes no smoke, than soft. At any rate, there is no smoke from its locomotives. It is built for the most part through the mountains where rock is the material easiest of access, and its road bed for that reason is rock ballasted. There is therefore, no dust. These two things are of unusual interest to the traveler by the line, for the reason that on no other road in the United States is there stronger incentive to keep one's eyes upon the passing scene. It is said of this line truthfully that every mile is picturesque. It traverses the agricultural region of Western New York, the valley region of Central New York, the mountain region of Pennsylvania and New Jersey, and every mile offers a view that is beautiful, interesting and entrancing. In point of comfort its passengers are particularly fortunate, for, in addition to there being no smoke or dust, the cars are roomy and scrupulously clean. Sleeping cars, parlor cars and dining cars offer all the conveniences and comforts of modern travel.

## THE PRESIDENTIAL CAMPAIGN.

Every indication points to the reelection of President McKinley by the largest majority ever given a presidential candidate. The evidences of this result multiply, as every day brings new ones forward. That such is the outlook is privately admitted by democratic campaigners who "put on a great front" in public. The whole democratic campaign is based on "the keep in line" theory. Thousands of men are "supporting Bryan," in appearance, simply because they wish to remain identified with the party until Bryanism is overthrown. They abhor Bryan's principles, and dislike his methods, but they cleave to the name "democracy." How many men of this class can you count among your own acquaintances, Mr. Voter? Dozens, no doubt. That these men put no spirit into the campaign, goes without saying. Wisconsin furnishes thousands of such cases, and Wisconsin is a fair sample of these United States.

What does democracy promise today? What inducement is held out for good citizens to "vote for a change?"

"Imperialism?" What is imperialism? Is there a sane man in the country who believes that the United States will or can become an empire? Is there a sane man in the country who really believes that the president will be replaced with an emperor?

"Free silver?" Is there a sane man in the country who does not admit that the United States has a safe and stable monetary system? Is there a sane man in the country who fears to accept an American dollar, at par, at any point on the globe? The democrats, themselves, admit that the silver issue is dead, however, so no discussion of this point is necessary.

"Trusts?" Is there a sane man in the country who claims that democracy offers a plain, practical plan for abating trusts? Is there a sane man in the country who will say that the enactment of the democratic platform planks will abolish the trusts? These planks are but generalities, and advance no practical plan, whatever.

And yet these three planks—imperialism, silver and trusts—are held to be "the paramount issues" by Bryan—the first an empty nothing, the second a dead-and-buried heresy, and the third a wordy windiness planned to catch votes. The democratic party, as represented by Bryan, promises nothing tangible, but advocates populist theories of known impracticability.

The republicans, however, can point to results. History has been made rapidly since the "democratic times" before President McKinley's election, and the American people know well what has been accomplished in both peace and war.

The Gazette has unbounded faith in the intelligence of the citizens of the United States, and upon this faith it bases its prediction—that President McKinley's plurality will be the largest ever received by a presidential candidate.

## MR. FETHERS ELECTION.

The election of Hon. Ogden H. Fethers as Supreme Chancellor of the Knights of Pythias is an honor to all concerned—the order, the state of Wisconsin and Mr. Fethers himself.

The people of Janesville are proud to have one of their number selected for so high a place and Mr. Fethers will be warmly congratulated by his Bower City friends and his friends throughout the state.

The choice is a wise one from every standpoint. Mr. Fethers is peculiarly fitted for the position to which he has been chosen, and that he will fill it with credit goes without saying. Not only in this respect, however, is the choice well made, for Mr. Fethers's election means much to the order in the way of a better business policy. It is proposed, according to the current talk among the Knights, to inaugurate to a certain degree, a new system, and Mr. Fethers represented the movement.

A Racine dispatch says the Painters union of that city, has decided to withdraw from the Wisconsin State Federation of Labor on account of the Federation going into the social Democracy. This decision was reached at a recent meeting. The statement is also made that nearly every union in the city will withdraw for the same reason as none of them like the platform of the Social democratic party.

Senator Spooner will cover a large amount of ground in his stumping tour this fall. The senator is going into the Yellowstone region for his annual hunting trip in a few days. On his return he will start on a tour, commencing at Milwaukee and covering Illinois, Iowa, Ohio and West Virginia and possibly some transmissouri states.

If Mr. Bohmrich meant it when he said he wanted a clean campaign, he should notify his undersecretary officially. The start given the battle by the democratic press would indicate that the Bryansites proposed to make the campaign the most disreputable in the history of the state.

The Milwaukee Sentinel, by a systematic canvass, has succeeded in locating all the democratic candidates for state office. We do not, at the present moment recall their places of residence, however.

The county fairs are now being held at various places in Wisconsin, but Janesville has none. Why not join the procession? Janesville can do anything she sets out to do. Why not have a county fair hereafter?

Milwaukee now claims to be the healthiest city in the world saying that the census figures prove the contention. Nothing that will add to the fame of the famous city is left undone these days.

The Racine unionists who refuse to swallow Social Democracy evidently believe in "an honest dollar and a chance to earn it by honest toil."

Mayor Rose may have difficulty in convincing the people of his sincerity in supporting the Boers, while wearing a Prince Albert coat.

Brodhead Register—Although not in our district we would be pleased to see Senator J. M. Whitehead of Janesville, returned to the senate.

Mayor Rose, we infer, is still a democrat despite his declaration that "this dying for principle is all rot."

A Texas man claims that Jesse James is still alive, but no one has yet charged Jesse with punching B. Patterson.

Appearances now warrant the prediction that the democratic war cry will be Mud, Mud, and Mud.

All kinds of wild game will be ripe tomorrow, including the modest but succulent oyster.

Tolstol Lives Like a Peasant.  
Although Count Leo Tolstol is a rich man he still insists on living like a peasant. He has often expressed a desire to give away his fortune, and several of his nine children agree with him, but the Russian law will not permit it without his family's consent.

Drain on brown paper and serve with sauce tartare.

## BUSINESS DEMOCRATS.

Impressive Reasons Why They Should Support McKinley and Roosevelt.

Among the series of interviews with business Democrats which appeared in the New York Times of July 27 Mr. Abram S. Hewitt is quoted as saying: "I believe that the election of Mr. Bryan, even with a Republican senate in existence, would result in widespread calamity and business convulsion. Its effect on business generally would be hard to estimate, but that its effect would be disastrous cannot be doubted."

Ex-Comptroller Ashbel P. Fitch, who, like Mr. Hewitt, is an anti-expansionist and a gold Democrat, said:

"I consider it my personal duty to support Mr. McKinley. I would not support Mr. Bryan on the best platform that was ever framed, and I would not vote for the best candidate ever nominated on the platform on which Mr. Bryan is running."

Here are two expressions of opinion that should carry weight with a numerous class of voters who, while differing radically with President McKinley on many points of governmental policy, are nevertheless inclined to regard his re-election as absolutely indispensable to the welfare and prosperity of the country. There are many thousands of Democrats of the same way of thinking. Democrats who agree with Abram S. Hewitt in the conviction that the election of William J. Bryan would be nothing short of a calamity to all business interests. Democrats who coincide with ex-Comptroller Fitch's statement regarding the reputation of Bryan and Bryanism. No one has put the case better than this:

"I would not support Mr. Bryan on the best platform that was ever framed, and I would not vote for the best candidate ever nominated on the platform on which Mr. Bryan is running."

It is a lifelong Democrat who puts himself on record in this emphatic manner, a Democrat who talks what he thinks and will vote as he talks. If all the business Democrats who hold the same view were to talk and vote the same way, next November would see the end of Bryan and Bryanism forever and ever, and the reelection of President McKinley would be practically unanimous. It is the best thing that could happen for the country.

## ROOSEVELT'S SPEECH.

The Truth He Uttered Is Unpleasant to Democrats.

The way in which the Democrats have dodged the blow delivered by Governor Roosevelt in his speech at St. Paul shows how heavily it went home. Here are Roosevelt's blunt and rasping words:

"Study the Kansas City platform and you cannot help realizing that their policy is the policy of infamy, that their triumph would mean misery so widespread that it is almost, unthinkable and a disgrace so lasting that more than a generation would have to pass before it could be wiped out. They stand for lawlessness and disorder, for dishonesty and dishonor, for license and disaster at home and cowardly shrinking from duty abroad."

The answer to this startling arraignment of the party of the Kansas City platform is the printing of a few pictures of conspicuous Democratic patriots such as General Joe Wheeler. This of course is not an answer.

"Under the Kansas City platform," said Governor Roosevelt, "the Democrats stand for lawlessness and disorder," meaning the plank denouncing government by injunction, "for dishonesty," meaning the fraud of free silver, "and dishonor," meaning surrender to the Aguinaldo rebels.

Such terms cannot be pleasant. We don't wonder that the Kansas City platform people don't like them. But they are simply the bare truth.—New York Sun.

## Governed Without Consent.

Among the regulations for the government of Florida by Andrew Jackson in 1835 was the following. It did not have the "consent of the governed." "That the United States courts shall have and exercise the powers beyond the limit of Pensacola and St. Augustine of granting and recalling licenses or commissions for innkeepers, retailers of liquor of every description and keepers of billiard tables and to regulate of them such surety as they may deem proper and impose such price for such license as in their opinion may be reasonable."

## Fears Well Grounded.

English newspapers have been keeping a keen watch on the development of American shipping, and they express well grounded fears that the passage next winter of the ship subsidy bill will bring a large American shipping into sharp competition with British shipping in the American foreign trade.

## A Point to Consider.

Wages have been higher during the last few years than ever they were before in the United States. And this was the period when the largest number of trusts were formed.

## Good Time to Begin.

It might be well for Bryan to arrange with his publishers to get out a limited edition of "The Second Battle" and begin to prepare matter for explaining how it happened.

## In Barrels.

Indiana friends of the Democratic Imperialistic candidate are forming Bryan soldiers' clubs to "hoor" up martial patriotism for the Nebraska colonel.

## A Hurrying to Get Out.

The Kansas City ticket and platform is calculated to make things lively at the exits instead of the entrances of the Democratic party.

## CHASE FOR GAME BEGINS TOMORROW

### COUNTY CLERK KEPT BUSY ISSUING HUNTING LICENSES.

Quite a Number of Janesville Nimrods are Ready to Make a Trip—Prairie Chickens are Reported Plentiful—Shooting of Quail is Strictly Prohibited by Law.

Tonight at 12 o'clock the open season on game commences and from that time until the close of the season the chase for game will be kept up by numerous hunters anxious to make a killing.

The last few days have been busy ones for the county clerk the demand for shooting licenses keeping him busy. One hundred and fifty one licenses have been issued up to today and that number is likely to be largely increased before night. Almost every man that owns a gun has been making preparations to be the first man on the shooting grounds of his favorite game, and have a hand in killing some of the birds that have been raised on the breeding grounds during the past close season.

Some few will probably succeed in getting a fair bag of game, but the great majority will come home disappointed. The opening of the season always causes a rush on the part of the hunters, after which things quiet down and there is very little shooting until later in the season when the cold weather brings down the northern game birds.

Quite a number of Janesville shooters are planning trips to the surrounding counties and adjoining states where the prairie chickens are reported to be more plentiful, but unless a man has a good dog and is acquainted with some resident of the locality he intends visiting he is rarely successful in obtaining a good bag of birds.

It will be lawful after today to kill woodcock, partridge, pheasant, prairie chicken, grouse of any variety, and plover until December 1st.

Wild duck, brandt, snipe or any aquatic fowl to January 1st. Wild geese until the 1st day of May 1901.

It is unlawful to kill Mongolian, Chinese or English pheasants or quail of any variety before 1901 and swan are protected at all times.

A hunting license costs but \$1 in place of \$1.25 as stated some days ago. In other counties a license costs \$1.25, 25 cents for an affidavit.

## ASHORE NEAR JUNEAU.

Steamer's Passengers and Crew Camped on the Beach Waiting Relief.

Port Townsend, Wash., Aug. 31.—The steamer Topeka arrived from the north at 11 o'clock last night, bringing 150 passengers and \$100,000 in gold dust. Officers of the Topeka report the British steamer Cutch ashore on Horseshoe reef in Stephen's passage, twenty-five miles from Juneau. The Cutch was in charge of the second officer when she struck on the night of August 24, and rapidly filled with water. The sea was smooth at the time and the passengers and crew succeeded in reaching the beach, where they were camped when the Topeka passed.

The steamer Treadwell was dispatched to the assistance of the wrecked vessel, but it was thought the Cutch will become a total wreck, as she was full of water aft and settling.

## To Prosecute Rioters.

New York, Aug. 31.—Frank Moss has been retained by a committee of representative colored men to see what action can be taken to punish the persons who were implicated in the recent outbreak against the negroes in this city. Mr. Moss will also represent the City Vigilance league in similar action, and an effort will be made to gather sufficient evidence to convict those who are guilty.

Mr. Moss declines to make public the names of the colored men, who have retained him, as he said that he did not think it would serve the interests of his clients to do so at present.

## Wants Cat in Indiana.

LaPorte, Ind., Aug. 31.—A bill is being drafted by an attorney at Arcadia which will be introduced at the next session of the legislature, providing for the establishment of the whipping post in Indiana. The offenses for which this drastic punishment is to be administered are: Habitual drunkenness, abuse of family, profanity or vulgarity in the presence of women, disturbing public meetings and insulting women in the streets or other public places.

## Open New Cable to Germany.

New York, Aug. 31.—Direct telegraphic communication between the United States and Germany was opened through the new German cable, in conjunction with the Commercial Cable company's system, from New York to Fayal and thence to Bremen, Germany. Messages of congratulation on "this significant work of peace" were exchanged between the German emperor and President McKinley.

## Find Three Skeletons.

La Crosse, Wis., Aug. 31.—The finding of three skeletons at Bell Center, a small town in the Kickapoo valley, is surrounded by deep mystery. Old residents faintly remember a triple murder committed many years ago, and it is supposed the bones are those of the victims. Matt Master, a merchant, found them while tearing down an old building.

## Price of Sugar Advances.

New York, Aug. 31.—All grades of refined sugar were advanced 5 cents a hundred pounds today.

## Death from Suffocation.

Death from suffocation is pleasant, according to Joseph Grady, a Winsted, Conn., plumber, who was in a "cave-in" until unconscious. He said: "I thought of every prayer I had heard and repeated them over and over. I could hear the men working above me. Then came sweet music, the sweetest I ever heard. That was the last I remember."

## Reweds His Wife of 1869.

Lansing, Mich., Aug. 31.—John A. Greenough, Deadwood, S. D., and Mrs. Estella A. Timmerman of this city were married at Bay View, Mich. They were first married in this city on Christmas day, 1869, and until Greenough came on last week to be again married to the bride of his youth they had not seen each other in twenty-four years. A few years later their first marriage Greenough went to the Black Hills to seek a fortune in the mines. He met with reverses and was unable to support his wife, who three years later obtained a divorce. Her second husband died two years ago. Greenough, after making his fortune, wrote his former wife last May and renewed his suit.

## Wife Shoots Herself.

Rock Island, Ill., Aug. 31.—Despondent because of her husband's coldness towards her, Mrs. Samuel Zimmerman shot and killed herself. In order to make her aim sure she held a mirror in front of her head before firing the shot. Mrs. Zimmerman, who was alone in her home, disrobed and shouted from an upper window to a neighbor to come and witness the deed.

## Detroit Shows Increase.

Washington, Aug. 31.—The census of the city of Detroit, Mich., as announced in a census bureau bulletin, is 285,704 in 1900, against 205,876 in 1890. These figures show for the city as a whole an increase in population of 79,828, or 38.77 per cent from 1890 to 1900.

## A Diplomatic Agent Recalled.

London, Aug. 31.—The delay of the Bulgarian government in complying with Roumania's demand for the suppression of the Macedonian revolutionary committee has led to the recall of the Bulgarian diplomatic agent at Bucharest, Dr. D. Theodoroff.

## Youthful Pair Hope.

Sterling, Ill., Aug. 31.—Emma Hohler, aged 15, and Richard Becker, aged 17, both of wealthy and prominent families, eloped to Kansas and married against will of their parents. The authorities at Topeka have been notified to arrest them.

## "A Bright Little Boy"

Would be sure of a welcome in almost any home. But what a welcome he would have in a home where the hope of children had been extinguished. What a welcome this particular "bright little boy" did have in such a home, may be judged by the closing paragraph of his mother's letter, given below. There is no room for the whole letter, which recounts a story of fifteen years of suffering and a perfect cure by the use of "three bottles of Dr. Pierce's Favorite Prescription, two bottles of 'Golden Medical Discovery,' and some of the 'Pellets.'"

In many instances childlessness is the result of conditions which are curable. It has often happened that when "Favorite Prescription" has cured a woman of female weakness and the nervous condition attending it, her return to health is signaled by the birth of her first child. "Favorite Prescription" makes weak women strong, sick women well.

"I cannot tell half that Dr. Pierce's medicine has done for me," writes Mrs. T. A. Ragan, of Norris, Watonga Co., N. C. "It will do all that is claimed for it—prevent miscarriage and render childbirth easy. It has given me a bright little boy, and I would not have had him had it not been for your wonderful medicine. I cannot say too much in praise of it; I think it is worth its weight in gold. I thank God for my life, and Dr. Pierce for my health."

"Pleasant Pellets" clear the complexion.
